

Thanks to my new computer techs! I have been using another guy for awhile and he always did a good job I thought. We ran into some difficulty last week and four days later (had my computer that long) he informed me I needed a new computer. I was telling my friend about this experience and she recommended calling Todd at [NetProAZ](#). In short, he showed up 2 hours after I called, looked at my computer for like five minutes, smiled and said he was taking my computer and would call in a few hours and that he didn't think it was any big deal. Exactly 6 hours after I first called my computer was completely fixed and returned and he left a file on my computer that broke down every detail of what he did. I am so glad I didn't have to replace my computer!
